SUPERCARGE YOUR GAME WITH SPECIAL ABILITIES & POWER-UPS

Our exclusive Gen8 Infinity equipment is packed with fun gameplay features! Abilities such as power shot, rapid fire, invulnerability, missiles, reset, payback, nukes, and stealth mode are at your disposal. Don't worry, we won't overwhelm you at the start; as your laser tag journey progresses, you'll unlock new abilities and power-ups!

ABOUT POWER SHOT

Power Shot is available in Standard missions. Players fire Power Shots by pressing the feature button. When a player fires a Power Shot, they will deactivate all players that their Phaser can see, across a wide angle, but with a limited range.

A single Power Shot will deactivate any player regardless of skill level. All players start with 5 Power Shots. Whenever a player destroys an infield target or generator, their Power Shots are replenished. The number of available Power Shots can be seen with the Power Shot icon on the main Phaser screen.
